Material Approval Chemicals of Concern Evaluation Sheet

Please indicate whether or not the product contains any of the following chemicals by filling in the appropriate column below. If the product does contain any of the chemicals of concern, please list at what levels.

Product Name:	Name of Person Completing Form:			Date:
Chemical of Concern	Check if none is intentionally added	Check if product contains trace amount	% or PPM <i>(specify units)</i>	If testing was performed, indicate method used <i>(include detection limit)</i>
1. Phosphorus <i>List the concentration of phosphorus, phosphate, or phosphorus containing compounds in the product. If the phosphorus is part of a compound, please list the name of the compound and CAS #.</i>				
2. Nitrogen <i>List the concentration of nitrogen or nitrogen containing compounds in the product. If the nitrogen is part of a compound, please list the name of the compound and CAS #.</i>				
3. Volatile Organic Compounds <i>List the concentration of VOCs in the product as determined by either mass balance or EPA method 24.</i>				
4. Hazardous Air Pollutants <i>List each HAP contained in the product, by name and CAS #, and its concentration.</i>				
5. Formaldehyde <i>Regulations require that formaldehyde be disclosed on the SDS if it is present at 0.1% by weight OR at 0.1 PPM and if the product is capable of releasing formaldehyde into the air, under reasonably foreseeable conditions of use. Therefore, legal has recommended that we ask the question exactly as stated below:</i> <i>“Does the product meet the requirements of 29 CFR 1910.1048(m)(1)(i)? That is, does the product contain greater than 0.1% formaldehyde? Is the product capable of releasing formaldehyde into the air, under reasonably foreseeable conditions of use, at concentrations reaching or exceeding 0.1ppm?”</i> <i>If either of these conditions is met, the formaldehyde must be declared on the SDS in accordance with the OSHA standard cited.</i>				
6. Polybrominated Diphenyl Ethers (PBDEs) <i>Does the product contain ANY PBDEs such as penta-, octa-, and deca-brominated diphenyl ethers? If so, please list the specific name and CAS #.</i>				
7. Phthalates <i>Does the product contain any of the following regulated phthalates: (BBP, DBP, DEHP, DIDP, DINP, or DNOP)? If so, please list the specific name and CAS #.</i>				
8. Antimony <i>Does the product contain any antimony or antimony containing compounds? If the antimony is part of a compound, please list the name of the compound, CAS #, the % antimony contained in the compound, and the % of the compound contained in the product.</i>				
9. Phenols <i>Does the product contain any phenols?</i>				
10. Nonylphenol & Nonylphenol Ethoxylates <i>Does the product contain any nonylphenol or nonylphenol ethoxylates?</i>

Material Approval Chemicals of Concern Evaluation Sheet

<p>11. Metallized HAPs <i>Does the product contain any of the following metallized HAPs or their compounds? If the HAP is part of a compound, please list the name of the compound, CAS #, the % of the HAP contained in the compound, and the % of the compound contained in the product.</i></p> <ul style="list-style-type: none"> • Arsenic • Cadmium • Chromium • Cobalt • Lead • Manganese • Mercury • Nickel 				
<p>12. Zinc <i>Does the product contain any zinc or zinc containing compounds? If the zinc is part of a compound, please list the name of the compound, CAS #, the % zinc contained in the compound, and the % of the compound contained in the product.</i></p>				
<p>13. Xylene <i>Does the product contain any xylene?</i></p>				
<p>14. Glycol Ethers <i>Does the product contain any glycol ethers that are regulated as a HAP or listed under the SARA 313 glycol ether category? If so, please list the specific name and CAS #.</i></p>				
<p>15. Naphthalene <i>Does the product contain any naphthalene?</i></p>				
<p>16. Methylene Chloride <i>Does the product contain any methylene chloride?</i></p>				
<p>17. Conflict Minerals <i>Does the product contain any Gold, Tin, Tungsten, or Tantalum?</i></p>				
<p>18. California Proposition 65 Listed Chemicals <i>Does the product contain any chemicals listed on the state of California's Proposition 65 list? If so, please list the specific name, CAS #, and concentration.</i></p>				
<p>19. Solids content <i>List the percent of the product that is solid.</i></p>				
<p>20. Water content <i>List the percent of the product that is water.</i></p>				

Please return this completed sheet to the individual who sent it to you along with an electronic copy of the SDS if one has not already been supplied.

Please note that Environmental Services will not review a Safety Data Sheet submitted by a vendor. We will only review requests for approval from Mohawk employees.

Thank you.
